6.3 State Financial Participation

- (a) State funds are used in both assistance and administration.
- ☐ State funds are used to pay all of the non-Federal share of total expenditures under the plan.
- ☒ There is local participation. State funds are used to pay not less than 40 percent of the non-Federal share of the total expenditures under the plan. There is a method of apportioning Federal and State funds among the political subdivisions of the State on an equalization or other basis which assures that lack of adequate funds from local sources will not result in lowering the amount, duration, scope or quality of care and services or level of administration under the plan in any part of the State.
- (b) State and federal funds are apportioned among the political subdivisions of the State on a basis consistent with equitable treatment of individuals in similar circumstances throughout the State.

42 CFR 433.10(c)(2)
1905(b)

(c) For services provided on or after July 11, 1996, the federal share of State expenditures for services provided through:

- (1) Indian Health Services (IHS) facilities; or
- (2) facilities owned or operated by a tribe or tribal organization and funded by Title I or III of the Indian Self-Determination and Education Assistance Act, P.L. 93-638, as amended, operating as 638 facilities, is 100 percent.

Services provided at or through a 638 or IHS facility include any service covered under Attachment 3.1-A or 3.1-B provided to any recipient eligible under the plan on the premises of the facility or provided by a health provider employed by the facility who travels to the patient. 100% federal match will be claimed for services provided through an IHS or 638 facility to any Medicaid eligible person who received any covered Medicaid service provided through an IHS or 638 facility during the calendar year.
